RAINBOW SKY

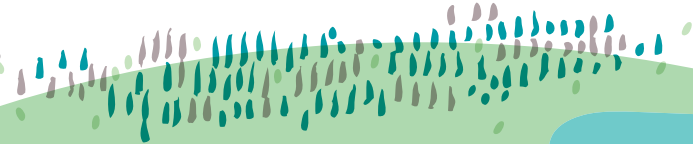

by Neeva Wahbeh and Darcie Morris

Once upon a time, in a land far, far away there lived eight beautiful sky colours. They were all brothers and sisters and lived peacefully with each other.

But they always wanted
to know what was the
meaning of their colour.

And so they decided to travel all the way to
Rainbow World to meet the King and Queen.

Once they reached,
they asked the King, "What is the meaning of our colour?"

The King replied, "You are the most special colours. You are clouds and when you live happily together, you create the rainbow in the sky."

The eight colours were
delighted to hear this. And they went back to their home
and lived happily ever after.

The End
